- **Frontend:** React, Angular, Bootstrap, Tailwind, Material UI, CSS, SASS
- **Backend:** Node.js, .Net, PHP, TypeScript, MySQL, MongoDB, C, Python
- **DevOps:** Docker
- **Version control systems:** Git
- **QA:** Jest
- **Tooling:** Vite, Webpack

EMPLOYMENT HISTORY

Full Stack Developer

Trademiun | Apr 2024 – Jun 2024

As the primary developer, I was responsible for the backend, database management, and REST API creation, contributing significantly to both the web and mobile platforms.

Key Achievements:

- Developed a scalable backend architecture and optimized the database, improving data management and system performance.
- Created and deployed a REST API, ensuring efficient communication between front-end and back-end systems.
- Led the development of key features for web and mobile, enhancing user experience and engagement.

Key Duties:

- **Backend Development:** Designed and implemented a robust backend system, ensuring scalability and reliability.
- **Database Management:** Structured and optimized the database for efficient data retrieval and integrity.
- **REST API Development:** Built a REST API from scratch, facilitating seamless data exchange.
- **Web and Mobile Views:** Developed responsive and user-friendly views, ensuring a consistent experience across platforms.

Web Development Intern

Seb Creativos | Mar 2023 – Jun 2023

During my internship at Seb Creativos, I was responsible for creating complete web page templates, customizing and integrating addons, and successfully addressing previously unmet project objectives.

Key Achievements:

- Developed and delivered multiple complete web page templates, enhancing the company's portfolio and client satisfaction.
- Customized and integrated various addons, improving functionality and user experience across different websites.
- Successfully met all previously unmet objectives, ensuring project deadlines were met and client expectations were exceeded.

Key Duties:

- **Template Design:** Created full templates for various web pages, ensuring they were responsive, user-friendly, and aligned with client needs.
- **Addon Integration:** Adapted and implemented addons to enhance site functionality and meet specific project requirements.
- **Project Completion:** Addressed and completed previously unresolved tasks, ensuring that all project goals were fully achieved.

EDUCATION & QUALIFICATIONS

- **Full Stack Bootcamp**
Oct 2023 – Jun 2024
HTML, CSS, Bootstrap, JavaScript, MySQL, MongoDB, Github, Docker, NodeJS, React, Scrum, Testing-QA, Typescript
Relevant
- **Higher Degree in DAW**
Sep 2021 – Jun 2023
Java, XHTML, CSS, JavaScript, Bootstrap, PHP
Medac
- **Secondary Degree in SMR**
Sep 2019 - Jun 2021
IES Vega de Mijas

EXTRA - Education

- **Piscine 42 Malaga**
Feb 2025
Unix, Shell, C
42 Malaga
- **Python course from 0**
Jan 2025
Python
Edutin Academy

HOBBIES AND INTERESTS

Traveling, gaming, reading books, practicing athletics, going out with my friends.

Thank you for your consideration.
